re: reasonable access law - political advertisements

I live in southern Indiana where congressional candidate Mike Bailey ran advertisements for his political campaign. The ads that showed aborted fetuses created quite a stir. I am all for the ads. I am against censoring a political candidates freedom of speech just because it runs against someone else's political agenda. I have 2 children ages 5+6 and I have no problem with these ads being shown on TV. I am glad the evil of abortion was exposed for what ~~it~~ it is - DEAD BABIES.

"PRO-CHOICE" people can holler all they want about choice but they better not stifle the truth of the matter... CHOICE = DEAD BABY. Hundreds of babies lives have been saved as a result of Mike Baileys ads that

showed the truth. If people were educated and shown the truth (which has been censored by the media) then millions of lives would be saved. 28 million dead in the last 20 years. How much longer can the ugly truth be hidden?

I urge you to keep intact existing rules that allow a ~~bold~~ honest person like Mike Bailey to convey truth to the residents in the district for which he is running for federal office. The persons who brought lawsuit against Mike and who ~~was~~ would attempt to quell the truth are anti-Christian and are liars and have their own personal & political agenda. ^{ATTY.} Larry Wilder & his wife Peggy Wilder - she is involved in local politics with higher aspirations as well, and chaired the local campaign activities for Bill & Hillary Clinton. Even our own newspaper - Jeffersonville Evening News has sided with the Wilder atty. And the

(Kathryn Copeland)
Woman who brought the lawsuit (Citing ads were graphic + obscene and would harm her children if they had seen them). Our newspaper is biased and has never once given an accurate report or account about this historical Campaign. Except for the lies and garbage atty. Larry O. Wilder has been spewing that they quoted extensively, the newspaper chose to ^{practically} ignore this Campaign. If you should change your rules + ^{choose to} censor a candidate's ads then there will be no way to convey the truth to the public. And I might add, no hope for this great nation, this bastion of freedom with liberty and justice for all.

Please please ~~keep~~ the existing rules intact that allow a political candidate free speech + let them air their ads at the prime time or any hours they want.

I can't believe a parent would have a fit over this, my goodness;

blood, guts, violence, decadence is shown on TV at all hours. Any good parent doesn't sit their young child in front of TV unsupervised anyway.

YES the ads are graphic but what's even worse is the millions killed thru ~~the~~ the abortion industry and the cheapening of all life in general because of Supreme Ct. Ruling Roe vs. Wade that allowed abortion on demand in the first place.

PRO-CHOICE [IS] PRO-DEATH
PRO-CHOICE means DEAD BABY!

Lets air both sides of the matter.
This is an important part of politics.
A candidate must be able to air his views. I'm not offended by the ads -
I'm offended by abortion. As the candidate said - If something is so evil that we can't stand to look at it ~~THEN~~ WHY ARE WE TOLERATING IT?

-5-

Please use wisdom & discretion
in this matter. Blessings to you
as you are faced with important decisions.

Sincerely,
Marlene Hers

Sirs:

I'm writing to tell you how I feel about pro-life candidates and their graphic ads depicting aborted babies. My opinion is that they should be allowed to show aborted babies because it's telling and showing what's actually going on in the abortion industry. People need to see and know all the truth, not just what pro-abortion candidates want us to know. I make my opinions on all information that I receive. No one has the right to censor half of the story.

Thank you for allowing me to write this opinion.

Dear Sir;

The move to censor the use of pictures of aborted babies even in paid political ads, is an obvious attempt by those, who profit from, or approve of the killing, to hide the truth from the public, of what the killing does to the child.

The advocacy (pro-abortion) news media has no qualms as you must know, about showing any kind of gore, from the contents of body bags and death in the military, to the horrors in the apartment of homosexual multiple murderer and cannibal Jeffery Dahmer. Their refusal to show the results of abortion can only be an effort to keep the average uninformed citizen from seeing what the abortionist does.

In the interest of educating the public to the horrible American holocaust that has killed in the most brutal manner, 30 million babies, I urge you not to count numbers pro and con but to resist the forces that want to censor the knowledge of their evil, from the uninformed who they fear would turn against their lucrative killing industry.

with sincere concern,

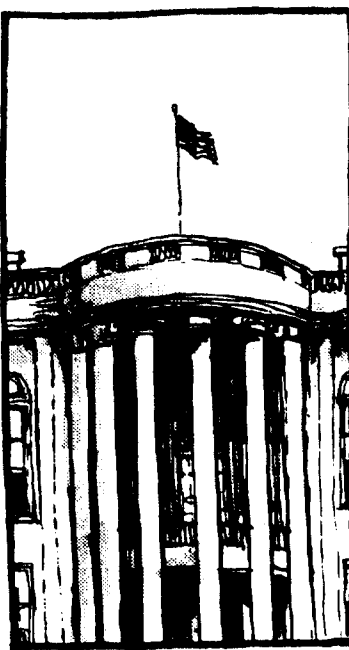

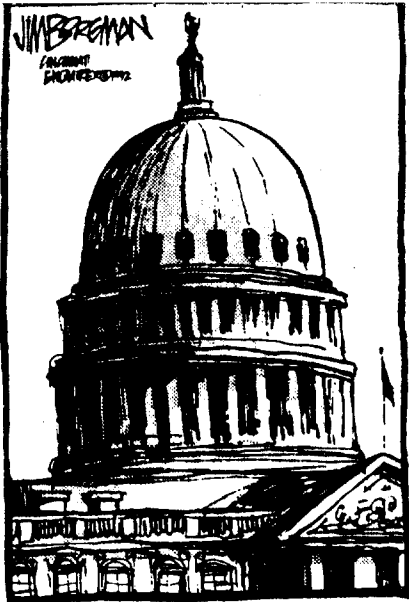

Jo Benzow
